SITE DESCRIPTION

An atypical werf without a clear structure, with two historic, T-shaped barns. However, the barn that now forms the main dwelling directly addresses Stellenbosch Kloof Road, and therefore is of landmark significance, particularly as it is located on a rise along the road.

STATEMENT OF SIGNIFICANCE

This werf is of some age, has landmark significance and contributes to the understanding of the pattern of settlement of the Stellenbosch Kloof Valley. It has historical, aesthetic, contextual and landmark significance.

INTERIOR DESCRIPTION

GROUPING WITH OTHER SITES
