SITE DESCRIPTION

This landscape unit comprises a high, forested sub-valley within the Helderberg. It affords views of the Eerste River corridor, the agricultural fields, and the foothills and peaks of the Bottelary Hills beyond. This sub-valley also enjoys unique views of Stellenbosch town to the north.

STATEMENT OF SIGNIFICANCE

This landscape unit comprises an important "wilderness" element within the Eerste River, and creates an important edge to the town. The landscape unit demonstrates the relationship between river corridor and settlement, as well as the rural patterns of use and the wilderness beyond. This interplay is extremely characteristic of the Cape Winelands, and key to its high cultural significance.
